To Whom it may Concern

I have been reading and study Rajneesh for over 5 years and cannot understand why any country in the world would want a man of great religious teachings to leave, It would seem that at a time when the world is having so much pain, that an enlightened being such as Bhagwan Shree Rajneesh is an asset to us, as diverse to his being a hinderance, he is an elegant being a rare breath of life, he must remain in our country
